

USE AND ASSEMBLY INSTRUCTIONS

USE AND ASSEMBLY INSTRUCTIONS

ATTACHING THE BREATHING TUBE:

1. Hold the Breathing Tube so it is oriented as seen in **Figure 1**.
2. To attach, slide the Breathing Tube over the tube mount on top of the Snorkel Mask.
3. Push the Breathing Tube in until the pin locks into place.
4. Tug the Breathing Tube to test if it is firmly in place. The Breathing Tube should **COMPLETELY** cover the seal rubber-gasket and be flush against the Snorkel Mask, as seen in **Figure 3**.

DO NOT push with excessive force when attaching the Breathing Tube to the Snorkel Mask, as this may affect the leak-proof seal.

If you are having trouble attaching the Breathing Tube and Snorkel Mask, there may be sand or debris present. Rinse all parts and make sure there is no debris remaining, then try attaching it again.

NOTE:

If the mask is positioned incorrectly, water may enter into the chin and forehead areas. Please adjust the headband and straps to securely fit around your head.

SAFETY FIRST

This product is designed for snorkeling purposes only. Do not use for any other purpose.

Always inspect product and parts before every use. If you find any cracks, punctures, irregularities, or any other damage, DO NOT USE.

Do not dive face-first into water, as this may shatter the mask and cause serious bodily injuries.

Do not scuba dive, free dive, or perform intensive swimming with this product. This product is not designed for such strenuous breathing activities.

Do not disassemble, modify, attach unauthorized accessories, or attempt repair of any product or part, as this may lead to serious injury, accidents and will void your snorkel's warranty.

If you experience any dizziness, light-headedness, or shortness of breath while using this product, stop use immediately.

KEEP OUT OF REACH OF CHILDREN. This product is not intended for use of children under 14 years of age. Adult supervision is advised.

PRECAUTIONS

Before each use, check that there is no sand or other debris on or in the Snorkel Mask and Breathing Tube. If you find any sand or debris, rinse with water.

Always perform a seal test to check the quality of the leak-proof seal.
